

# PDFgen graphics API test script

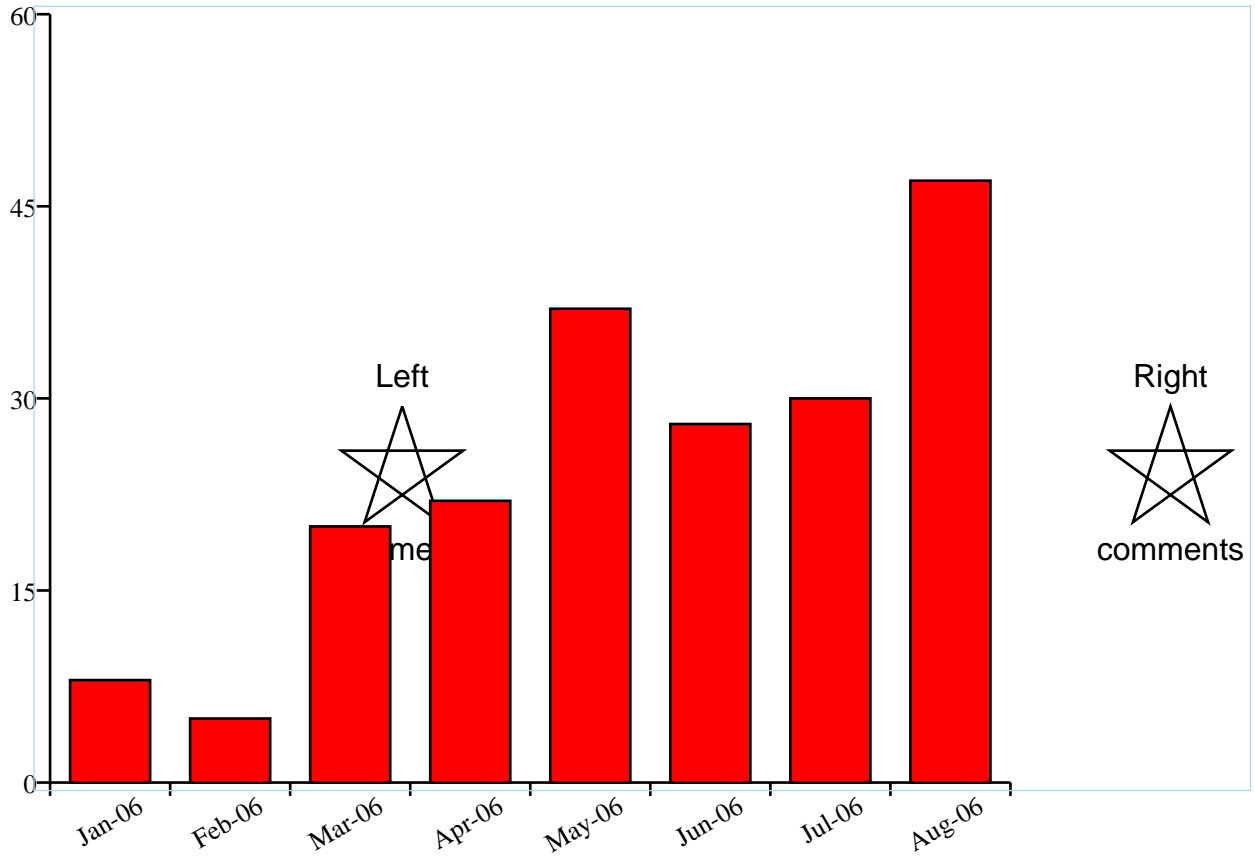

## Champions

### Philosophizing

This is a paragraph in *Normal* style. We do understand exactly why the system hates me. I really really hate the autocorrect. I really do not mind the tab-complete function, but the rest of this is shit.

1	2885.51	29.8	03	04
10	11	12	13	14
20	21	22	23	24
30	31	32	33	34

## Line Drawing Styles

**Well, its now hard to argue that this is working pretty well.  
Possibly make some nice output charts, and import an image.**
