

This tests ability to alternate left and right templates. We start on a plain one. The next page should display a left-side template, with a big inner margin and staple-like holes on the right.

One can specify a list of templates instead of a single one in order to sequence through them.

Heading 1 always starts a new page (3)

Heading1 paragraphs should always have a page break before. Heading 2 on the other hand should always have a FRAME break before (4)

Heading 2 always starts a new frame (5)

Heading1 paragraphs should always have a page break before. Heading 2 on the other hand should always have a FRAME break before (6)
