

Hello World. This is page 1 of a 2 page document.

Page 2. This has some postscript drawing code. If you print it using a PS device and Acrobat 4/5, or export to Postscript, you should see the word "Hello PostScript" below. In ordinary Acrobat Reader we expect to see nothing.

This document also inserts two postscript comments at beginning and end of the stream; search files for "%PS_BEFORE" and "%PS_AFTER".
