This is a test of CJK word wrapping. When using the CJK algorithm, we split between characters. Unfortunately this sucks when English words are involved - for example the title of a technical product manual. This paragraph uses CJK wrapping, so if you can see English words getting broken in two, something went wrong! At the time of writing, it looks OK.
日本語は難しいですね!日本語は難しいですね!日本語は難しいですね!This should get broken between some words. 日本語は難しいですね!日本語は難しいですね!
日本語は難しいですね!日本語は難しいですね!日本語は難しいですね! This_should_be_unbroken_as_we_backtrack_to_previous_kanji. 日本語は難しいですね!日本語は難しいですね!
日本語は難しいですね!This_should_be_broken_in_mid_word_as_we_do_not_backtrack_home_th an_half_a_line. 日本語は難しいですね!日本語は難しいですね!
Regression test: we really don't want line 2 to start with an exclamation mark.日本語は難しいですね!日本語は難しいですね!日本語は難しいですね!日本語は難しいですね!日本語は難しいですね!
